## On-Site Grades 4-6 Activity Life Cycle Animal Hunt

As you travel through the Tropics, Northern, Minnesota and Discovery Bay Trails, find the answers to the following questions that ask about the life cycles of the following animals.

### *Tropics Trail*

- What animal has 3-12 eggs and lays them in 7 inches of soil? These animals can live to be over 100 years old.  
\_\_\_\_\_
- This is the "Mother of the Forest". It can be found in Madagascar in dry savannahs. \_\_\_\_\_
- These small animals live in family groups. The males will have stink fights to determine who will mate with the female. \_\_\_\_\_
- This animal is the smallest of the bear family?  
\_\_\_\_\_
- This animal lays up to 30 eggs at a time. Its bite can kill. The young will hide in trees until mature. \_\_\_\_\_

## **Coral Reef**

- Many islands began life as \_\_\_\_\_ erupting through the ocean. The life underneath the surface around the island is called the \_\_\_\_\_.
  - How do clown fish hide from predators? \_\_\_\_\_
- 

- When does the white tip reef shark hunt for food?  
\_\_\_\_\_

- How long are water monitors when they hatch?  
\_\_\_\_\_

## **Minnesota**

- In what season are beaver young born?  
\_\_\_\_\_
- Do beavers hibernate? \_\_\_\_\_

## **Discovery Bay**

- How many types of reproduction are there in sharks? Which one is the most advanced? \_\_\_\_\_
- 

- What is the life expectancy of a bottlenose dolphin?  
\_\_\_\_\_

## Northern Trail

- In the last 100 years tigers have been reduced in numbers drastically. What threatens tigers? \_\_\_\_\_
- 

- Which lives longer, a cat or a tiger?
- 

- Find the development chart for tigers. At what week in development do tigers socially play? \_\_\_\_\_

- How do are the moose and wolf populations balance each other?
- 
- 
-
